Notes

Population - effective since the 1991 Census non-permanent residents included in total.

2001 Census population - based on 2006 boundaries.

Economic family - refers to 2 or more ind. living in the same dwelling, rel. to each other by blood, marriage, common-law or adoption.

Experienced labour force - includes ind. who worked since 1/1/2005 and who were employed or unemployed during the ref. week.

Non-movers - on Census day were living at the same address as 1 or 5 years previously.

Non-migrant movers - lived at a different address but in the same census sub-division.

Average - or arithmetic mean is calculated by dividing the sum of the included categories by the number of the included categories.

Median - an alternate measure of "average" Median income of a specific group is that amount which divides their income size distribution into halves (below & above the median)

Prevalence of low income - the percentage of a specified group below Statistics Canada's low income cut-offs (LICO)
